MR. CHARLES A. TRAPHAGEN

Past: He introduced us to a new adventure in education when we left our former schools to enter Onteora. In striving to develop our individual capabilities and interests, he gave us the assistance necessary for the completion of our course of study and extra-curricular activities. Above all, he gave us the encouragement and support that is essential in retaining student interest in such a new environment.

Present: Preparation for our future is the main theme of his program now. He is acquainting us with the requisites and benefits of advanced study. Those of us seeking immediate employment after graduation have profited by aptitude tests and by personal interviews and conferences with prospective employers.

Future: Our success in the years to come will reflect his unceasing efforts in guiding us towards the realization of our goals. These future years will increase our appreciation for his kindness and understanding while we were students at Onteora.
